

PAMZ-2— AUTOMATIC PORTIONING MACHINE

The automatic machine cuts in equal halves the shapes of gorgonzola. A sensor measures the product and sends the data to PLC. The program calculates in automatic two equal halves or two halves and one disk. The cutting is made by stainless steel blades.

- equal halves form in height
- combined to the slices portioning machine to fixed weight and placing into plastic containers - model **TZX**
- structure at «L» for facilitate the operator

TECHNICAL DATA

Construction / Stainless Steel Aisi 304/316

Electric supply / 400 V 3PH + T 50 Hz

Pneumatic supply / 6 bar

5,2 Kw / **Installed power**

2800 x 1600 x h 2000 mm / **Overall machine dimension**

Production
