

TZX2T-M – ULTRASONIC PORTIONING LINE TO FIXED WEIGHT AND PLACING INTO PLASTIC CONTAINERS

The line carries out the portioning into fixed weight segments. The production data are set by the operator panel. The operator loads the half form of gorgonzola: automatically the line cuts it into fixed weight. Then they are placed in plastic containers and sent to the packaging line. The cut is made by ultrasonic blade. Thanks to two heads of portioning is get high production.

- portioning at 360°
- two cutting moulds work independent
- videocamera for control the end of line

TECHNICAL DATA

Construction Stainless Steel Aisi 304/316

Electric supply 400 V 3PH + T 50 Hz

Pneumatic supply 6 bar

16 Kw **Installed power**

5300 x 3500 x h 2800 mm **Overall machine dimension**

66 pieces per minute **Production**
