

TZX2T – ULTRASONIC PORTIONING LINE TO FIXED WEIGHT FOR GORGONZOLA AND PLACING INTO PLASTIC CONTAINERS

The line carries out the portioning into fixed weight segments. The production data are set by operator panel. The operator loads the half form of gorgonzola: automatically the line cuts into half (therefore 1/4 of form) and after in fixed weight slices. Then they are placed in plastic containers. The cut is made by ultrasonic blade. Thanks to two heads of portioning is get high production.

- two cutting moulds work independent
- videocamera for control the end of line

TECHNICAL DATA

Construction / Stainless Steel Aisi 304/316

Electric supply / 400 V 3PH + T 50 Hz

Pneumatic supply / 6 bar

16 Kw / **Installed power**

5400 x 3400 x h 2200 mm / **Overall machine dimension**

60 pieces per minute / **Production**
