

TZXT-M – ULTRASONIC PORTIONING LINE TO FIXED WEIGHT

The line carries out the portioning into fixed weight segments. They are then placed in plastic containers. The operator loads the half forms of gorgonzola: automatically the line cuts them into fixed weight. Then they are placed in plastic containers and sent to the packaging line. The cut is made by ultrasonic blade.

- portioning at 360°
- videocamera for control the end of line

TECHNICAL DATA

Construction / Stainless Steel Aisi 304/316

Electric supply / 400 V 3PH + T 50 Hz

Pneumatic supply / 6 bar

15 Kw / **Installed power**

4300 x 3500 x h 2800 mm / **Overall machine dimension**

30 pieces per minute / **Production**
